DETAILED ACTION***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 21, 46-48, 51- 54, and 57-65 are rejected under 35 U.S.C. 102(b) as being anticipated by Drasler et al (US 5,496,267).

3. Drasler discloses an water jet atherectomy device (fig. 4) having a first tube 174 within a second tube, a jet body 161 with a jet emanator, at least one outflow orifice 170 and at least one inflow orifice at 172.

Response to Arguments

4. Applicant's arguments filed September 22, 2003 have been fully considered but they are not persuasive.

In response to applicant's arguments the Examiner is correct with respect to the inflow and outflow orifices. Please see the drawing below.

Art Unit: 3763

Even if the inflow and outflow orifices are different from applicants, the claims do not have enough structural language to distinguish over Drasler.
